

Specification

Code-Nr.: 60603012

Photos**Electrical properties**

Antenna Typ	Magnet-7 2
Frequency	890 - 960 MHz 1710 - 1880 MHz
Gain	0 dB
Impedance	50 Ohm
VSWR	< 1.5
Max. Power	100 Watt

Mechanical properties

Cable	HF50, available in any length
Application	For magnetic-antennas is considered an all-round distance from the roof-edge of 60cm. This rule applies also to the distance of various Antennas to each other or protruding metal parts.
